Japanese Hold the Key to Port Arthur

FIGHTING AROUND THE CITY

Oku Reports a Hard Battle Near Kai Yang

THE KEY TO THE CITY.

Rome, July 11th.—A despatch to the Agency Liberal from Chee Foo reports that Clangeao, the key to the defence of Port Arthur, has been captured by the Japanese. Fighting is proceeding along the chain of hills between Clangeao and Port Arthur, and the report adds that the Russian battleship Retvizan and another Battleship have been destroyed. No details are included in the report.

ON THE ROAD TO MUKDEN.

Moscow, July 11th.—The Liao Yang correspondent of Novosti reports that the Japanese advanced column has appeared on the main road to Mukden.

FIGHTING AT PORT ARTHUR.

Chee Foo, July 11th.—There was heavy fighting at Port Arthur from midnight until morning to-day.

USED A WAR BALLOON.

London, July 11th.—Special despatches to the Daily Telegraph and the Daily Mail from Tokio assert that the Japanese captured guns during the fight around Port Arthur on July 4th, and that they reconnoitered from a war balloon.

OKU FIGHTS AGAIN.

Tokio, July 11th.—After three days' desperate fighting characterized by desperate attacks of the Japanese and stubborn resistance by the Russians to the northwest in the direction of Hai Cheng the Russians have strongly fortified a hill situation in a semi-circle south of Kai Yang. Their force consisted of 30,000 men. In his report of the engagement General Oku does not give any details but shows the difficulties of the struggle.

Winnipeg Markets

From the Commercial:

Wheat—No. 1 northern, 90 1-4c; No. 2 northern, 87 1-4c; No. 3 northern, 83 1-2c; No. 4 wheat, 75 1-2c; feed, 57c; No. 2 feed, 56c, spot or July delivery. For August delivery—No. 1 northern, 91 1-8c; No. 2 northern, 88 1-8c; and No. 3 northern, 84 1-2c; and October delivery—No. 1 northern, 83c; No. 2 northern, 80c, all in store, Fort William and Port Arthur.

Oats.—There is very little change in the situation. Two sales have been made at 35 to 38c for No. 2, one ear being sold at the low figure in order to avoid paying demurrage or sending on to Fort William. At the same time holders of oats will not sell at less than 39 to 41c for No. 2, yet refuse to buy. They claim there is no further warehouse capacity, and are thus enabled to keep prices up.

Barley.—The market is stagnant. A nominal quotation is 40c Fort William.

The Close of the Fair

Calgary Herald: The exhibition closed yesterday in a blaze of glory. In honor of citizen's day all Calgary was present. The afternoon was a civic holiday and the patronage was more than double that of any other day of the fair.

The weather was ideal. The rain of Thursday had eliminated the dust nuisance and the ladies could wear their daintiest frocks with no fear of damaging their apparel.

And they were all there. The children, too, crowded the big grand stand and scampered over the surrounding green. The children found amusement in the special vaudeville performance and the elders enjoyed the speed numbers.

It was a fitting finish of a very successful fair. The management exhibited the satisfaction the different directors expressed. The lesson impressed upon the gentlemen in charge was the total inadequacy of the grand stand facilities. An additional amphitheatre must be constructed before another exhibition is held.

Bought Alberta Cattle

It is announced in Winnipeg that H. A. Mullins, ex-M. P. P., the cattle exporter, who has returned from Alberta, has had placed in his hands for shipment the entire output of beef cattle from the Cochrane ranch, over two thousand head, and also the cattle from the New Waldron ranch, over 2,500.

Mr. Mullins purchased from Spencer Bros. of the Milk River ranch, 2,000 head; from Maunsell Bros. Macleod, 2,500 head; from the Medicine Hat Ranch Co., 600 head, and several hundred head from Neims, Huckvals and Hooper, of Medicine Hat. Mr. Mullins purchased almost ten thousand head for eastern firms and Scotch dealers.

GOOD SPORTS AT PONOKA

Ideal weather, a well-filled program and a large crowd of happy and contented people all served to make the celebration of the 37th anniversary of the Dominion of Canada in Ponoka a splendid success. The number of people in attendance was the largest ever gathered in the town. Early in the forenoon they began to arrive and until noon the merchants were busy supplying the wants of their out of town customers. The early morning was cloudy and rain threatened, but by nine o'clock the clouds had disappeared and the day was clear and pleasant for the occasion, though quite warm during the afternoon.

The first event of the day was a ball game between the Dakota Settlement team and the Brooks District. The game was not very hotly contested as neither team had had sufficient practice to give them confidence. The score was 14 to 4 in favor of Brooks. The second game was played between the winners and a Ponoka team resulting in a victory for the latter in a score of 10 to 5.

The racing and athletic events were pulled off without a hitch, with the following results.

Pony race, W. J. Dea's horse 1st; C. Minnick's horse 2nd.

Free for all, Geo. Cox's horse, 1st; W. J. Dea's horse, 2nd.

Ladies' race—Miss Martin's horse 1st; Mildred Cox's 2nd.

Saddle race—Geo. Cox, 1st; Ed. Wright, 2nd.

Male race, E. Pendleton first and second.

100 yard race—J. A. Fairley, 1st; Frank Tate, 2nd.

Three legged race—Dilkie and Anderson, first; Courtright and Fairley second.

220 yard race—J. A. Fairley 1st; Courtright, 2nd.

Boys race—Age 15.—H. Gadbois, 1st; Goodman, second.

Age 12—Shierer, 1st; Pendleton, second.

Age 8—R. Moody, 1st; C. Shary, second.

Girls Race—Age 14.—Miss Gehlke, 1st; Miss Dick, 2nd.

Age 10—Miss Mullins, 1st; Miss Harris, 2nd.

Flat Man's race—A. Fairfield, 1st; Cissell, 2nd.

Business Men's Race—L. Courtright, 1st; J. A. Jackson, 2nd.

Clerk's race—J. V. Dickie, 1st; J. A. Kerr, second.

Potato race—John Gadbois, 1st; W. Rodle, 2nd.

Sack race—F. Tate 1st; F. Crook, second.

Standing jump—F. Tate, 1st; J. V. Dickie, second.

Running jump—J. V. Dickie, 1st; F. Tate, 2nd.

High jump, J. V. Dickie, 1st; F. Tate, 2nd.

Hop, step and jump—F. Tate, 1st; J. V. Dickie, second.

Throwing baseball—E. C. Merrill, first.

This Canada of Ours

The statistical year book issued by the Department of Agriculture is not commonly considered a highly entertaining volume, but the number just issued contains many things which might be made the subjects of profitable reflection by Canadians.

To the residents of the Northwest this comparative table of the average mean temperatures of the various provinces for the last year may be interesting as enabling them to compare the climatic conditions of the West with those of the East and of the Pacific coast: Prince Edward Island, summer, 61.9 degrees F., and 19.5 in winter; New Brunswick, summer, 69 degrees, and winter 19.0. Nova Scotia, summer, 63.2, and winter, 25.0; Quebec, 58.3 summer, and 15 winter; Ontario, 63.0 summer, and 19.8 winter; Manitoba, 60.1 summer, and 0.8 winter; British Columbia, summer, 61, and winter 32.4.

During 1903 the homesteaders in the west numbered 32,682, composed of the following nationalities:

Canadians from Ontario, 3,977.
Canadians from Quebec, 550.
Canadians from Nova Scotia, 152.
Canadians from New Brunswick, 98.
Canadians from Prince Edward Island, 79.
Canadians from Manitoba, 1,055.

Canadians from Northwest Territories, 611.

Canadians from British Columbia, Persons who had previous entry, 2,451.

Canadians returned from the United States, 777.

Americans, 10,302.

Newfoundlanders, 2.

English, 3,632.

Scotch, 431.

Irish, 325.

French, 232.

Belgians, 65.

Swiss, 17.

Italians, 21.

Roumanians, 88.

Syrians, 10.

Germans, 934.

Austro-Hungarians, 2,895.

Hollanders, 19.

Danes (other than Icelanders), 61.

Icelanders, 203.

Swedo-Norwegians, 583.

Russians (other than Mennonites and Doukhobors), 315.

Doukhobors, 2,284.

Chinese, 7.

Spaniards, 1.

Brazilians, 1.

Bulgarians, 3.

Turks, 2.

Persians, 15.

Australians, 13.

New Zealanders, 1.

Concerning the irrigation undertaking in Southern Alberta and Western Assiniboia, is the following paragraph:—

"This project embraces a block of three million acres of land lying east of Calgary, which is intersected by the main line of the Canadian Pacific Railway. The soil in this vast area is first-class, but during the majority of years the rainfall is not sufficient to mature crops. The water for irrigation in this block is being taken from the Bow river near Calgary in a main canal having a bed width of sixty feet, and carrying water to a depth of ten feet. This main canal is about twenty miles in length, and from it the water is distributed through secondary or smaller canals, which will ultimately reach several hundred miles in length. About one-half the block, or fifteen hundred thousand acres, can be irrigated, the remaining half being devoted to grazing and dairy farming. The first section of the scheme now under construction includes the main canal and about one hundred miles of secondary canals and this section will irrigate and bring under cultivation three hundred thousand acres for grazing and dairy farming. This section of the scheme is estimated to cost \$1,700,000, and if it proves a success, further sections will be constructed until the whole scheme is completed, at an estimated cost of between four and five million dollars.

In every group of ten thousand persons in Canada at the time of taking the census in 1901 there were:

Males, 5,123.

Females, 4,877.

Children under one year, 245.

Children, 1 year to 5 years, 952.

Boys and girls, 5 to 15 years, 2,224.

Youths and maidens, 15 to 20 years, 1,029.

Young men and women, 20 to 30 years, 1,738.

Middle aged, 30 to 50 years, 2,278.

Elderly persons, 50 years and over, 1,443.

Single persons, 6,175.

Married, 3,412.

Widowed, 413.

Single males, 3,256.

Single females, 1,729.

Married males, 1,729.

Married females, 1,683.

Widowers, 138.

Widows, 282.

Families, number of, 1,993.

Families, persons in, 5,011.

Bachelors over 20, 1,000.

Spinsters, 711.

French, 3,070.

Others, 6,930.

Canadian born, 8,700.

British born, 9,434.

Foreign, 566.

Religions—

Protestants, 5,701.

Catholic, 4,151.

Jews, 39.

Pagans and not specified, 118.

Presbyterians, 1,568.

Church of England, 1,266.

Methodists, 1,707.

Baptists, 589.

Other Protestant sects, 571.

Insane, 31.

Blind, 6.

Deaf mutes, 12.

In 1891 the returns showed that Ontario had given 11,638 of her sons and daughters to the upbuilding of British Columbia, 46,020 to Manitoba, and 13,591 to the Territories. In 1901 the Ontario born dwellers in the west were: British Columbia, 22,642; Manitoba, 67,366, and the Territories, 30,243. In all, 121,451 in 1901 against 71,872 in 1891.

About the North Country

The annual summary report of the Geological Survey Department just issued contains much information of general interest about the lesser known regions of Canada.

THE KLONDIKE.
Mr. R. G. McConnell who spent the summer of last year in work in the Yukon says:—

"A preliminary examination of the Klondike gold fields was made by the writer in 1899, and a report of it published the following winter. It is intended to re-write this report during the coming winter and to add to it the additional information acquired since. It is unnecessary therefore in this summary to give any detailed description of the district or do more than refer to some of the changed conditions.

The gold production of the Yukon Territory since the discovery of the Klondike gold fields in 1896, is valued by the Mines Section of the Department, at nearly \$96,000,000. The production by years is as follows:

1896.....	\$ 900,000
1897.....	2,500,000
1898.....	10,000,000
1899.....	16,000,000
1900.....	22,275,000
1901.....	18,000,000
1902.....	14,500,000
1903.....	12,250,000
	\$ 95,325,000

The whole of this great amount, with the exception of about \$1,000,000, credited to the smaller camps, was obtained from the various Klondike creeks and benches, and principally from Bonanza, Eldorado, Hunker and Dominion creeks, and the Bonanza benches. The dwindling production since 1900, in spite of the increasing use of machinery, is due to the gradual exhaustion of the phenomenally rich spots on Eldorado and Bonanza creeks, and on some of the Bonanza benches, and does not mark a corresponding decline in the mining industry of the region. The number of creek claims worked, and the amount of gravel handled, have increased rather than diminished in recent years, but the average grade of the gravel mined is much lower. Very few claims, if any, on the more important creeks are being abandoned even when completely worked over, as there is a general expectation that most of them will pay to be re-worked, especially if a water-supply is established, and some of them are being re-worked under present conditions. Worked-out claims on the richer portions of Eldorado creek are worth from \$10,000 to \$15,000 apiece.

The high level gravels, so far as later mining is concerned, show greater signs of exhaustion than the creek levels. Work has almost stopped on some of the principal Bonanza hills and the number of men employed is steadily decreasing. These gravels are much deeper than the creek gravels, usually ranging in this respect from 50 feet to 150 feet, and only the lower three to five feet over part of the area covered, is rich enough to work by the ordinary methods. They are well situated for hydraulic mining, but the scarcity of local water prevents the general adoption of this method.

No new creeks of importance have been discovered since 1899, although some cases creeks and portions of creeks, which had been staked and partially or wholly abandoned, on account of steadily decreasing. These gravels are now being worked. This has occurred in the case of All Gold creek, a tributary of Flat creek. The valley of this creek was staked in the early days of the camp from head to mouth; a few holes were sunk to bed rock, but as no particularly rich spots were discovered, the claims were all, or nearly all, abandoned. They have been re-staked during the last two seasons and pay gravel has been found at a number

of points. The longest pay-stretch, so far discovered, occurs near the mouth of the creek, where several adjoining claims are being worked. The pay is light, none of the claims yielding much more than good wages and some not that. All Gold creek heads with Dominion and Hunker creeks, but flows in the opposite direction towards the Flat creek depression, and it is the only creek draining the eastern and northeastern slopes of the Klondike hills on which gold in paying quantities has so far been discovered. The general character of the valley and of the gravels conform to the general type. The white channel gravels occur in considerable volume on the left limit, along the lower portion of the valley, and are overlaid near the mouth of the creek, as is the case on Bonanza and Hunker creeks, by rounded river gravels. They rest on a bench of varying width, cut into the side of the valley at an elevation of from 150 to 250 feet above the present creek-bottom, the elevation increasing, as usual towards the mouth of the valley. The white channel gravels of All Gold creek have not, so far, yielded gold in paying quantities. Fair prospects are reported from a couple of places, but on account of the scarcity of water for sluicing purposes, practically no work has been done.

"The great reduction in the cost of mining, which has given value to these comparatively low grade gravels, is due not to any radical change in the methods of mining, so far as the laying out of the work is concerned, but to the great cheapening of freight rates up the creek since the construction of the government roads and to the general introduction of machinery. The ordinary equipment of a mine on Dominion creek costs from \$5,000 to \$8,000 on the ground, and consists of a 35 to 50 H.P. boiler for furnishing power, a hoist and self-dumping bucket, worked by an 8 to 10 H.P. engine, a centrifugal pump, with a six-inch discharge for elevating water for sluicing, driven by an engine usually of about 15 H.P. and a small Worthington pump with a three-inch discharge and a one-inch nozzle for thawing, or a set of points when the thawing is done by steam. The operating expenses of an ordinary plant, with one shift and night thawing, amounts to about \$100 per day, and from 50 to 60 cubic yards of material are mined and sluiced daily. The cost of handling a cubic yard of gravel has been reduced nearly one-half since 1899.

"The two methods of mining commonly employed in the Klondike, viz., by open cut, or by hoisting and drifting, are described in the Summary Report for 1899. These methods are still generally employed, the principal change being in the substitution of machinery for hand labour. In a few cases, however, attempts have been made, more or less successfully, to introduce cheaper methods. A dredge, originally intended for work on the Lewis river, has been operating on Bonanza creek for the last three seasons. The work done has shown that when the gravels are completely thawed out, they can be mined very cheaply by dredging, but when first encountered, thawing, as in the other methods must be resorted to. In dredging, also the bed-rock is not seen, and there is always some uncertainty in regard to the completeness of the recovery of the gold. Where the bed-rock is hard and blocky, the gold often sinks down along the bottom and bedding planes to a depth of 4 or 5 feet, and some of it must almost necessarily be left behind. In soft bed-rock, on the other hand, the recovery of gold is probably nearly complete.

"Steam shovels are employed on several claims in the district, and where the conditions are suitable, they handle the gravels and certain kinds of bed-rock cheaply and effectively. The overlying muck requires to be sluiced off in the ordinary way, and the gravels must be thawed out before good work can be done.

"Another attempt at cheap mining in the creeks introduces the hydraulic principle, but it is still only in the experimental stage. On Gold Run creek two claims have been equipped with long China pumps and bucket elevators. The pumps and elevators, each about 70 feet in height, rest in a sump, excavated 12 to 14 feet in bed-rock. The gravels are washed into the sump by a stream of water under small pressure, and are carried up by the bucket elevator and dumped into the sluice boxes. The China pump elevators the water used in hydraulic mining and it serves again to wash the gravels."

THE PEACE RIVER COUNTRY.

The following report is made by J. M. Macdonald regarding the Peace River District:

"Pursuant to your instructions I left Ottawa on the 4th of May, and travelling by the usual routes reached Edmonton on the 11th. I was joined there by Mr. William Spence, who acted as my assistant during the summer, and together we drove to Ath-

abasco Landing, where we remained until May 23, when we were enabled to take passage on a Hudson's Bay Company's York boat bound for Lesser Slave Lake. After a short delay on the lake, caused by the ice not yet having broken up, we reached the trading post at the head of the lake on June 2. Horses and wagons having been hired there, we drove to Peace River Landing, where I expected to be able to buy horses, but finding none for sale, I was very glad to hire a pack-train for the season, at a reasonable rate, and by this means I was enabled to traverse a wide extent of country, and during the summer I visited every piece of open prairie of more than 5,000 acres in extent and examined every piece of cultivated land in the Peace river region.

"A small steamer, owned by the Roman Catholic mission, went down to Vermilion in June, and, taking passage on this boat, I was enabled to see the

As to Railway Engineers

The following letter on the question of employment of United States engineers on the Grand Trunk Pacific survey, appears in a recent issue of the Ottawa Citizen:—

Editor Citizen:—So much has been said respecting the employment of alien labor to the exclusion of native skill and native needs in connection with the Grand Trunk Pacific survey, it may not be considered remiss to have a word to say and perhaps more than a word, in relation to its investigation. That undue discrimination has been exercised against the appointment of Canadian engineers is more than apparent and for this exposure we are largely indebted to the commission. That Canadian engineers are equally, if not better, qualified for explorations and construction over the route of the Grand Trunk Pacific Railway, is beyond question, and it is no less obvious that if Canadian men of undoubted skill and experience were offered as favorable consideration as those imported, men more conversant with the country and with the work would be available.

But this investigation is to me, as it must be to others, an annoying proposition, for although we cannot suffer our rights to be ignored we should not object to the employment of American engineers by denying recognition to those who may fill their places efficiently and justly. We want interchange of knowledge in the profession; we want to teach and be taught. There is, every day, in the progress of time, something to learn and the more we know the more our experience teaches how much there is to learn. English speaking engineers some of them still living, built and equipped the first lines of railway, the world over; there were no circumscribed bounds. The present generation may do better, but there is much to learn and interchange of thought and experience are always desirable to keep abreast with the time.

Although the investigation now pending may contribute adequate protection, civil engineers ought to entertain greater ideals than those afforded by an Alien Labor Act. The act may be necessary so far as its scope extends, but that it should embrace the work of the civil engineer, whose professional limits cannot be localized, gives some ground for reflection. Our aim should be "protectionist" the same as other learned professions enjoy in this country under the provisions of a close corporation act adopted with necessary by-laws to govern the Canadian Society of Civil Engineers. At present many eminent American engineers are members of our society and those qualified to become members would not, I venture to say, be objected to on the ballot or after election in the field.

If, as is reported, Mr. Hays has promised to consult the Canadian Society of Civil Engineers respecting future appointments I cannot see what further investigation is necessary. If any American engineer has adopted utterances when speaking of American brains in an attitude of implied or expressed antagonism to Canadian engineers, when fulsomely lauding those of the United States, it is to be more regretted than envied. Many of our engineers find employment in the United States and we ought not to court reprisals.

I think it may be admitted that the Grand Trunk Pacific Railway Company have the right to appoint their chief engineer and in the ordinary course some others to assist him so long as discrimination against Canadians is not adopted. The government commission exercising the chief control of the location and construction of the eighteen hundred miles of the eastern division will find employment for all available skill the country may command. I desire to add that I am alone responsible for these remarks.—M. MURPHY, Mem. Can. Soc. C. E.

General

The submarine boat protector is reported on excellent authority to be at Cronstadt. The protector left New York June 5th for Cork, Ireland, on board the Norwegian steamer Furuna. It has been reported that the Protector will be shipped by rail to Vladivostok.

At the German St. Petersburg Embassy a statement made by the London Times' correspondent at Tokyo that Germany had agreed to allow the Port Arthur squadron to seek refuge at Kato-Chau, the German port on the Shantung peninsula, was absolutely denied. No such question has been raised. Germany is observing neutrality in accordance with her proclamation to this effect.

It is asserted that Gen. Ma, commanding the Chinese troops in Manchuria, is angry with the Russians for their treatment of the Chinese troops. He is quoted as accusing them of trying to provoke reprisals, and it is alleged that he declares they shot twelve of his soldiers while they were peacefully patrolling Chinese territory.

The Paris Journal's St. Petersburg correspondent says that Capt. Kioffi, who had been imprisoned in the fortress of Peter and Paul for selling State documents to the Japanese, has committed suicide by opening an artery. The Exchange Telegraph Company says it understands that 80 members of the House of Commons have so far signed their intention to join in the proposed Parliamentary visit to the United States in the fall.

While Sir William Henry Rattigan, M.P. for the Northeast Division of Lancashire was automobiling with his wife, near Egglestone, a fire burst and the machine was overturned. Sir William was killed and his wife was severely injured. Sir William was four times judge of the Chief Court of Punjab. He was an additional member of the Supreme Legislative Council of India in 1892-93, and a member of the Punjab Legislative Council in 1892-93. He was the author of a number of legal works.

Speaking in the House on the estimates, Sir Richard Cartwright said that the government had not lost sight of an Atlantic fast line, but a 10-knot service would cost from \$1,000,000 to \$1,500,000 a year, and as the difference between 17 knots and 20 knots was only 15 hours in passage, it was not worth the price. The people were now looking more to comfort than to the speed.

The Malta correspondent of the Daily Express telegraphs that H. M. S. Venerable has created a world's record in prize firing there, one of her 12-inch barbettes guns having fired nine rounds in three minutes, and scored nine hits. The following was the actual record of the foremost barbettes, the time occupied in each case being three minutes—Turret, 9 rounds, 5 hits; right gun, 9 rounds, 9 hits; left gun, 5 rounds, 5 hits. Total, 23 rounds, 19 hits.

NEW MILITIA BILL

MANY CLAUSES PASSED

Little Opposition Offered to the Provisions Taken up Yesterday.

Bulletin Special Dispatch.

Ottawa, Ont., July 11th.—The new Militia Bill was discussed in committee of the whole to-day and sixty-seven clauses were passed without serious opposition.

The requirement that the General Officer commanding shall hold rank in the British army is abolished.

To insure a continuity of policy and unity in administration the Minister of Militia will be assisted by an advisory board of officers.

No opposition was made to the provisions of the bill and during a part of the discussion less than a dozen members of the Opposition were in the House.

Bourassa was heard from as usual. He was afraid that the bill permitted the Governor General to call out the militia irrespective of the advice of his council. He moved an amendment to the bill to make it clear that this could only be done by the Governor in Council. He voted alone for his amendment.

NEWS OF THE WORLD

IN BRIEF PARAGRAPHS

Condensed Dispatches Dealing With the Day's Most Important Happenings

Winnipeg, July 11th. The steamer Beaton went ashore near Yarmouth.

TODAY'S CELEBRATION

The members of the Orange Lodges in the district are celebrating this afternoon in Strathcona.

A special train came in from the south this morning bringing a large number from points along the line. Many of these came over to Edmonton during the forenoon.

About noon the Port Saskatchewan lodge reached town and with the local members left at 12:30 by special train for Strathcona.

CAVALRY FOR THE WEST

According to an Ottawa dispatch a new corps to be known as the Strathcona Horse, with the object of perpetuating that famous name will shortly be raised, with headquarters at Regina. This is in line with a policy of extending the militia system to the Territories.

There is also on foot a movement towards providing a constabulary force, especially for the more settled portions of the Northwest, and confining the duties of the Mounted Police more to the less populated districts.

AN EDMONTON MAN ADVANCED

Regina Standard: The Standard learns from a reliable source this morning that Mr. J. Kenneth Macdonald, who has been acting Deputy Attorney General for some time past, has been confirmed in the position and will on his return from Calgary accept the full responsibility of that position.

Mr. Macdonald is well suited for the position by reason of his long connection with the department, the work of which is understood by no one better than he. He is a barrister of the Northwest Territories, and was for some time editor of the Edmonton Bulletin.

DROWNED IN A NORTHERN STREAM

It was brought to town yesterday a sad accident by which a young man named John Bower, of Lacombe, lost his life a few days since by drowning in the Drift Pile river.

Bower was a member of Bray's survey party which left Edmonton about the middle of May for the Moose river. The party camped beside the Drift Pile river, and Bower going in for a bath, was drowned, his companions being unable to rescue him from the current.

The Provincial cricket tourney opens to-day.

A hypnotist shot a woman in a St. Paul theatre.

Thomas Redfern was seriously injured by a blasting shot at Brandon.

Exile and death by administrative order has been abolished in Russia.

Forest fires are destroying millions of feet of lumber on Vancouver Island.

The winners in the Northern League were Superior, Duluth and Grand Forks.

Twelve thousand employees of the packing houses at Kansas City will strike to-day.

Captain Crowe of the 30th Midland Regiment is the possible winner in the Alex. Martin competition at Bisleigh.

Enquiry is made in St. Louis for Miss Belle Davis, who is heir to a valuable estate in Manitoba.

The Missionary Committee of the Methodist Church fixed the dates of the convention and conferences.

The United States Government crop report shows a marked improvement in the condition of the growing grain.

The regulars guarding the Sydney plant have been mulcted out and their places taken by volunteers.

Ten thousand Sockeye salmon were taken in traps near Victoria yesterday. The industry is being revolutionized.

James Murray of the Dominion Department of Agriculture has arrived to superintend the work of scientific growing of seed grain.

Deceased, who was about twenty years of age, came to Edmonton from Lacombe last fall and spent the winter here, attending classes at Alberta College.

PROMENADE CONCERT

The Apollo orchestra gave a promenade concert in the Park last evening, the turnout being fair. The brass band played on the street in the vicinity of the rink before the concert.

A good program of instrumental music was given by the orchestra and Mrs. Bennett sang several selections from the "Gala." Messrs. Duguay and Stutchbury also gave solos.

A. Hencher gave a gymnastic exhibition and Chas. Hopkins an exhibition of club swinging.

The following was the program rendered:

PART I.

1. Two-step—Our American Belles—A. Liberati, Orchestra.
2. Song, French—Regrets de Mignon (Les)—A. Thomas, Mons. Duguay.
3. Waltz—Nourhama—G. D. Barnard, Orchestra.
4. Club Swinging, A. E. Hopkins.
5. Three step—Blue Bells—Ivan L. Davis, Orchestra.
6. Song—The Jewel of Asia—Sidney Jones, Mrs. Bennett.
7. Two Step—1st Cavalry I. N. Z.—Chas. Schmid, Orchestra.
8. Gymnastic exhibition, Prof. Hencher.

PART II.

9. Waltz—Ball Scenes—Alfons Czibalka, Orchestra.
10. Club swinging, A. E. Hopkins.
11. Three step—May Blossoms—Victor Lambert, Orchestra.
12. Song—Japanese Love Song—Thomas, Mrs. Bennett.
13. Two Step—Over the Fence—Ivan L. Davis, Orchestra.
14. Duet—Alice, Where Art Thou—Mrs. Bennett and C. Duguay.
15. Waltz—Lily of Florence—Albert Castellani, Orchestra.
16. Gymnastic Exhibition, Professor Hencher.

God Save the King.

Parker is the Man

Judge Parker, of New York state, was selected on the first ballot as the Democratic candidate for president.

The committee on resolutions voted the gold standard plank out of the Democratic platform by a vote of 35 to 15.

This was the third victory for W. J. Bryan during the all night session of the committee. He had made two successful efforts earlier in the evening and secured modifications of the tariff plank on two separate votes.

WALTER VOGT, Directors.
sw-71-74-pd

Sealed tenders addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Monday, July 25, 1904, inclusive, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted the cheque will be returned. The Department does not bind itself to accept the lowest or any tender.

By order,

FRED GELINAS,
Secretary and acting Deputy Minister,
Department of Public Works,
Ottawa, June 24, 1904.
Newspapers inserting this advertisement without authority from the Department will not be paid for it.

About the North Country

Continued From Page Three.

river-valley from Peace River Landing to Vermilion and my stay at the latter was sufficiently long to permit of my examining the country for fifty miles around that place. As my full report will be published in advance of the summary statement, none but the briefest reference to the results of my season's work will be necessary. I found that the valley of the Peace River all that it has been reported to be, but the cultivable area in the valley itself is so small that it is not worth considering in a report on the whole region. On the upper Peace river plateau, which is from 200 to 1,000 feet above the river and from 2,000 to 2,500 above the sea, the only part that is likely to be touched by a railway for many years, is about 7,000,000 acres of prairie or bluff country. The wooded parts differ hardly at all from the prairie, as regards soil. This is, almost everywhere, a rich black loam resting on an impervious clay subsoil. This soil is of great fertility but of varying depth. Its fertility is shown by the analysis made of it by Prof. Frank T. Scott of the Experimental Farm, Ottawa. He reports: "It was found to have a very slightly acid reaction. Tested for alkali, only traces of common salt were found, though a careful search for injurious sodium and magnesium compounds was made. A qualitative examination for lime, showed that the soil was by no means deficient in this element. A partial analysis of the air-dried sample furnished the following data:

Per cent.	
Maturity.....	2.44
Organic and volatile matter.....	11.82
Nitrogen.....	.471

"We have in these results ample and emphatic evidence as to the richness of this soil in humus compounds and nitrogen, equalling in these respects much of the fertile prairie soil of Manitoba, and the North West Territories. Time has not allowed any determination of the potash and phosphoric acid, but in judging from past experience with soils of a similar humus and nitrogen content, this soil in all probability is well supplied with these constituents." The country south of the Peace river, including Grande Prairie, is probably a little warmer than that to the north of the river between

Dunvegan and Peace River Landing.

"The whole of the upper country is well suited for cattle raising during the summer, as the ground is covered with luxuriant grasses and other fodder plants, but the winters are long and dry for about four months must be made.

"Though the greater part of the country has been burnt over, there is still an abundance of poplar and spruce for house-building and fencing purposes, and of course, for fire-wood, but there is no timber suitable for railway construction, except for ties.

"In the vicinity of Vermilion, the climate is much better than in the upper Peace river region. This is due chiefly to the fact that the country is about 1,500 feet lower than the Grande Prairie and the district about Dunvegan. Wheat ripens here in about three years out of five and barley and oats are seldom touched by frost. The soil too is better suited for continued cultivation, for though somewhat lighter than that described above, it is of great depth and very fertile. A large mill operated by the Hudson's Bay Company furnishes a market for wheat which is at present wanting in the upper country, the surplus flour ground at Vermilion being sent down the river for the northern trade."

A Warm Skirmish

The Russian general staff received the following dispatch from Lieut. General Sakharoff, the chief of the staff of General Kuropatkin, dated July 4: "On July 3 the advanced force of the Russian force operating east of Liao Yang, occupied a position at Langtse pass. Towards evening the same day our scouts ascertained that a detachment of the enemy's advance guard, 15,000 strong, had occupied the villages of Ekhuavan and Tien-Ku-men. On our front, the main force having remained in Fr Shui and Mo-tien passes. At this moment we discovered the movement of a Japanese detachment, consisting of a battalion of infantry, to turn left positions in the Langtse pass in the direction of Lian Dian Sun. In order to check this movement, a force was sent forward in the direction of the threatened points."

"In order to learn the strength of the enemy's position in front of Langtse pass, the commander of the detachment ordered out was reinforced and a reconnoitering party of ten companies was sent in the direction of Ekhuavan, under the command of Colonel Letschitsky. With the view of making a demonstration insuring the return of Letschitsky's detachment, three companies under Lieut. Colonel Garnitsky, marched to Ma-humizsa, about a mile and a half south of Ekhuavan, to the crossing of the roads leading to Sin Khi and the Lok river passes."

"Firing began at 2.30 p.m. July 4. Garnitsky's column reached the cross roads and dislodged a company of the enemy's advance guard, which was almost annihilated. Simultaneously Letschitsky's column dislodged the enemy's advance posts without firing a shot, and approached the foot of the heights, surmounted by a temple. The temple is less than a mile east of Ekhuavan, where, although exposed to a heavy frontal and flank fire, our troops dashed forward and dislodged the Japanese from their entrenchments and occupied the pass. As the enemy was preparing to deliver a frontal and flank attack, our column then retired, as previously instructed. Three companies of Garnitsky's force occupied the position which they had been ordered to secure."

"When Letschitsky's force began to withdraw then the enemy opened a heavy fire from the heights. In spite of this the column retired in perfect order. Brave Letschitsky remained continuously on the fighting line and directed the column with remarkable ability and coolness. He was the last to retire with his chief of staff and adjutant. Garnitsky's column behaved with equal brilliancy and coolness, carrying out their task with no sign of agitation."

"Our casualties were: Letschitsky bruised and wounded; Colonel Popelow, Lieutenant Colonel Trakhemovsky, Captain Soloviev, Lieutenants Markoff, Latkins, Bobrovsky, and Kozine, Second Captain Paly and several other officers wounded and 20 soldiers killed or wounded."

"I observed the fighting with my staff from the Tkhaoquan tower and I can personally testify to the conduct of the troops. I cannot pass in silence the remarkable devotion of the surgeons or the chaplain who attended the wounded under a heavy fire and even helped to carry them off the field. All the wounded were removed."

"On the morning of July 5 our reinforcements occupied Lian Dian Sun, one soldier was killed during the fighting. The same afternoon a detachment of the enemy, consisting of two battalions and six hundred men with 6 machine guns, advanced and attacked our outposts, lying south of the River Kiao, who retreated under the vigorous fire of the enemy. The officer commanding our advance cavalry advanced at 2.40 p.m. with a detachment and at the same time the enemy placed machine guns on the height northwest of Doum Schikhedja and their infantry occupied the outskirts of the forest near the village. Our horse battery retreated on the

position at Dousitchja, near the railroad, being severed by mounted dragoons and frontier guards. Under the fire of our artillery and rifles the enemy quickly evacuated their position and retreated toward Senu Chen. Our cavalry pursued them until they reached an entrenched position occupied by a strong force of the enemy."

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section of 160 acres more or less.

ENTRY.—Entry may be made in the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three years:

(1) At least six months' residence years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of "no of said occupier of said land" being satisfied, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must "provide for the support of his family" and "be a bona fide settler."

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Notice of Dissolution

Notice is hereby given that the partnership heretofore subsisting between the undersigned as undertakers in the town of Edmonton, has this day been dissolved by mutual consent, all debts owing to the said partnership are to be paid to John A. Appleby at Edmonton aforesaid, and all claims against the said partnership are to be presented to the said John A. Appleby, by whom the same may be settled.

Dated at Edmonton, Alberta, this eleventh day of June, A.D. 1904.

**Going for Chamberlain's Colic,
Cholera and Diarrhoea
Remedy.**

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery, and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use.

When reduced with water and sweetened it is pleasant to take. You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for any emergency? Price, 25 cents.

LOCAL

—Town council meets tonight.

—The Salvation Army band came up from Calgary this morning and paraded the streets to-day.

—The general delivery at the post office closes at five o'clock hereafter and reopens at seven.

—H. Hume got away this morning with a scow load of goods for Lloydminster.

—Rev. Davies reached Victoria on Saturday night with his scow. A. Tait is piloting the scow.

—The Government telegraph line to Battleford refuses to act this morning.

—W. G. Ibbotson, custom's broker, has opened up an office next door west of the custom's office.

—The Mathers' gallery have an excellent display in their window of interesting photos of stock, races, etc., taken at the fair.

—A long spell of matchless summer weather was broken by a heavy thunder storm early this morning. The day continues cloudy.

—Work was begun yesterday installing the water and sewer mains along Second street from Namsa to Fraser avenues.

—The town council met yesterday in committee of the whole in conference with Willis Chipman regarding water-works and sewerage matters.

—The regular meeting of the Woman's Christian Temperance Union will be held to-morrow at 3:30 p.m. in the lecture room of McDougall Methodist church.

—Eugene Rihan of the Ponoka Herald was in town this morning. The report that he had leased the Herald was erroneous as it is his intention to retain the management of the paper.

—The C.P.R. excursion rates to the coast and points in the interior of British Columbia are proving a drawing card, 5¢ tickets having been sold already.

—The Battleford Herald announces that the river is falling and trouble will ensue to those using the water route. The reference must be to some other river as the Saskatchewan is brim full at Edmonton.

—Rev. W. L. Chegwain, successor to Rev. J. A. Dyer at Wesley, near Mossburn, accompanied by his wife and family, took charge of his circuit last Sunday. Last year Rev. Chegwain had charge of the mission field at Athabasca Landing.

—On Tuesday, July 5th a meeting was held at St. Albert to elect a mayor to replace Mr. Peltier, who is going to the States. Mr. Arthur Levasseur was chosen and elected by acclamation. A banquet was given at the St. Albert hotel by his friends.

—Ponoka Herald: Rev. H. E. Gordon, the new pastor of the Methodist church arrived with his household effects last Friday and took charge of his work on Sunday. He will now have the usual experiences of a new circuit rider in finding the roads to his various country appointments.

—A collision occurred this morning in front of the Pullman office between a Chinese boy and small halfbreed. Neither understood the other's language, but this did not prevent them expressing their opinions of one another. The timely intervention of the peace officer prevented international complications.

—The first fan-tan game to be broken up by the police in town was found in progress in a laundry on Queens avenue on Saturday evening. Seven Celestials were caught busy frying the favors of chance and summoned to appear in police court.

—The alteration in the C. & E. time table which allows the northbound to reach Strathcona at 4:30 is greatly appreciated by the business men of both towns as it removes the necessity of a special walk down town in the evening for the mail.

—The Calgary Herald expresses the hope that the C. & E. time table will be further altered and the southbound train started from Strathcona a half hour earlier. As yet no change in the hour of departure has been made, however.

—A man by the name of Chappell, who was being taken to Regina jail from Carmuff for a serious crime, jumped the train between Haliburton and Weyburn. The policeman who had him in charge jumped after him and was so seriously injured in jumping off the train that he was unable to follow after his prisoner who managed to make good his escape.

—A story has reached town of a gentleman who started a few days' since with a scow load of goods for

Fort Pitt, having some trouble at Clover Bar. The report is that the water being high, the ferry cable caught the scow, tilted it, and lost part of the goods, while the man in charge was forced to hang on the cable for some time until help arrived. The scow was recaptured near Fort Saskatchewan.

—In the following rough and ready fashion a Texas editor goes after the man who runs down his own town: "The sorriest cuss on earth is the cuss that sits around and cusses his town." To the foregoing he adds: "If we lived astride of the north pole we would call it home and would be ready to boost it up. If we couldn't say anything else good about it we would say that our ice bill didn't come high. We wouldn't live in a town we had to cuss while the world is as big as it is now."

—The reported appointment of Mr. J. K. Macdonald to the position of Deputy Attorney General of the Territories, will, if true, be a source of gratification to his many friends in Edmonton. For many years Mr. Macdonald was a resident of town, during a considerable portion of which time he was on the staff of the Bulletin. He went to Regina some three years since to take a position in the Attorney General's department. The appointment of Mr. Horace Harvey, Deputy Attorney General, to a judgeship last week left the way open for Mr. Macdonald's advancement.

PERSONAL

J. G. Harkness of Leduc is in town. J. Hackett of Star is in town to-day. W. R. Hull came up from Calgary last evening.

Mr. and Mrs. Ruhl went to Banff this morning.

James McDougall left for the coast this morning.

Mr. and Mrs. J. Hostyn went to Banff yesterday.

Mr. H. McKay left this morning for a trip to the Coast.

Mr. George Cushing, of Calgary, came up on Monday.

Mrs. P. Blois and family left this morning for the coast.

Mr. and Mrs. Crafts and children left for the coast this morning.

Capt. G. H. Young, inspector of customs, came in from Winnipeg yesterday.

Mrs. W. F. Baird went to Red Deer this morning after spending a few days in town.

Hugh McCullough, of the Bank of Montreal staff, Regina, left for home this morning after spending several days in town.

H. Ross leaves the latter part of the week for Nelson, B.C., where he will join Mrs. Ross, who went over last week to spend several weeks among the mountains.
